

TAPIWA T. MASARIRA

Computer Science student and
Tutor

PROFILE

I am inquisitive and eager to learn. I am driven and strive daily towards my personal goals and the goals of the groups and organisations I associate myself with. I am a firm believer in consistent hard work and discipline. Any organization which shares these beliefs will bring out the best in me and both I and the organisation will flourish. In my spare time I play 5-a-side soccer with my friends and the guitar.
